Dear Editor:

The first National Nurses' Week was observed in October 1954, which marked the 100th anniversary of Florence Nightingale's mission to Crimea. In 1974, President Richard Nixon issued a proclamation designating National Nurses' Week to be observed annually from May 6-12. May 6th is known as National Nurses' Day and May 12 is the birth date of Florence Nightingale, the founder of modern nursing.

In honor of National Nurses' Week, we would like to recognize the service that our team of more than 40 nurses provides the residents and families of Shiawassee County Medical Care Facility (Pleasant View). We wish to extend our warmest regards and sincerest appreciation for the work our nurses do here at Pleasant View all year long. These men and women work hard, they work together and they genuinely love the people they care for. In doing so, they improve the lives of our residents and the quality of life in Shiawassee County as a whole.

To all the nurses serving at Shiawassee County Medical Care Facility (Pleasant View), both past and present, we say, "thank you!"

From all the Residents and Employee Team Members
Of SCMCF (Pleasant View)
